EDUCATION

BHAGWAN PARSHURAM INSTITUTE OF TECHNOLOGY

Rohini, Delhi

Bachelor of Technology (B.Tech), Information Technology

Sep 2022 – July 2026

- Cumulative GPA: **8.62/10.0**
- Relevant Coursework: Data Structures and Algorithms, Computer Fundamentals, Probability, and Applied Statistics, Operating System, Database Management System, Computer Networks.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Basic Java, JavaScript, HTML.
- **Web Technologies and Frameworks:** MERN Stack (MongoDB, Express.js, React.js, Node.js), Tailwind CSS.
- **Databases:** MongoDB, SQL.
- **Computer Science Fundamentals:** Data Structures and Algorithms, Operating Systems, Computer Networks, DBMS, Object-Oriented Programming (OOP), Compiler Design.

SCHOLASTIC ACHIEVEMENTS

- Solved **800+ DSA problems** across platforms: **600+ on LeetCode**, **100+ on GFG**, **100+ on Codeforces**.
- Achieved a maximum **LeetCode** contest **rating of 1700**.
- Maintained a **GPA of 8.62/10.0** during B.Tech.
- Engineered personal and academic projects, including an **Online Voting App**, **Jewelry Calculator**, and a **Quick-Commerce Site**.
- Participated in college fests and volunteered in college events.

PROJECTS

Online Voting App

| *Full Stack Development - DEC 2024 - Jan 2025* | **Github** |

- Designed and developed a secure **online voting system** with features like voter authentication, candidate management, and real-time vote tracking.
- Built using the **MERN Stack** (MongoDB, Express.js, React.js, Node.js) for a scalable backend and dynamic frontend.
- Ensured one-person-one-vote logic and provided an admin dashboard to manage elections and monitor **live results**.

Kridha (Jewellery E-commerce)

| *Full Stack Development - June 2025 - May 2025* | **Live** |

- A Backend-Focused E-commerce App using **Node.js**, **Express.js**, and **MongoDB**.
- Enforced features like **product listing**, **add to cart**, **cart value updates**, **address form**, and **simulated payment gateway**.
- Applied user authentication using **JSON Web Tokens (JWT)** for secure **/login and session management**.
- Enabled **real-time cart updates** and **item quantity control** through **Express.js** and **MongoDB integration**.

QuickDrop (P2P File Sharing App)

| *Next.js - July 2025 – August 2025* | **Live** |

- A Peer-to-Peer File Sharing App built with **Next.js** for secure and instant file transfer.
- Enabled sharing of **multiple** file types including **PDFs**, **images**, and **videos** without cloud storage.
- Implemented **unique 4-digit code** generation for each session, allowing file download from anywhere.
